

TARGETWATCH BOT

A S N I P I N G I N F O B O T O N T E L E G R A M

WHITEPAPER

WELCOME TO TARGETWATCH BOT

Welcome to the grand unveiling of the very first Telegram-based CA Sniping Information Bot! Your go-to source for sniper information both pre and post-launch. Discover crucial details such as the number of snipers participating, their investment amounts in ETH, and more. These insights are key to identifying and navigating high-hype launches.

CREATING A BEST SYSTEM

TargetWatch Bot – your ultimate companion for comprehensive sniper insights, both before and after a CA launch! Wondering how many snipers are in the game, or curious about their ETH investments? Look no further.

Our bot brings you a detailed breakdown, helping you unravel the intricacies of each launch. Discover the pulse of the market by knowing the number of snipers, the scale of their investments in ETH, and other vital details that can guide you in identifying upcoming hype launches.

Empower your crypto journey with TargetWatch Bot – where information meets opportunity. Uncover the data you need to make informed decisions and stay ahead in the dynamic world of crypto launches!

FEATURES

01. In-Depth Insights

We know how vital information is in the sniping game. That's why our posts are packed with detailed data. Whether you're a seasoned sniper or just starting out, our aim is to provide you with the knowledge you need to make informed choices.

02. Sniper Headcount

Curious about the competition? We've got you covered. With our feature, you can easily check how many snipers have joined a launch. This knowledge gives you an edge in understanding the market, helping you fine-tune your strategy.

03. Social Media Made Easy

Staying connected in the crypto world is crucial. With our /Soc command, you can quickly access social profiles of the projects you're interested in. We believe that easy networking is a key part of your crypto journey.

FEATURES

04. Group Compatibility

We understand the importance of community and sharing insights. Our TWB Bot is designed to work seamlessly in your preferred groups, whether they're small or large. Share valuable insights and engage in meaningful discussions with ease.

05. Commands

- **/App 0x... for Pre-launch CAs:** Looking for info on pre-launch CAs? Our /App command is your go-to resource, providing you with essential details to stay ahead in the crypto game.

/Depth 0xca for Launched CAs: For projects that have already taken off, our /Depth command gives you a deep dive into the world of launched CAs, helping you navigate their intricacies.

HOW TO USE
